CHOOSING THE RIGHT SERVICE BODY FOR YOU

Our service bodies are available in multiple sizes to suit different vehicle and trade requirements.

The available heights are 860mm and 1000mm, with length options of 1800mm, 2100mm, and 2400mm.*

Widths come in either 1820mm or 1900mm, allowing for a secure and stable fit.*

These variations provide flexibility for tool and equipment storage while improving organization and accessibility.

Our large range of service bodies guarantees that we have a size that will suit your vehicle.

This ensures the correct weight distribution while maintaining your vehicles handling performance.

A. Service Body Widths

1820mm Wide Service Body*

1900mm Wide Service Body*

Note: Current Ford Ranger and Volkswagen Amarok models will require a 1900mm wide service body.

**All Measurements and Weights displayed are approximate to the closest value*

B. Service Body Lengths

1800mm Long Service Body*

Available across most Dual Cab Utes

1800mm long service body available for dual cab ute vehicles. Can be fitted onto an existing tray or replace a tray / tub body with a Caddy Made Aluminium Tray.

2100mm Long Service Body*

Available across most Extra Cab Utes

2100mm long service body available for extra cab ute vehicles. Can be fitted onto an existing tray or replace a tray / tub body with a Caddy Made Aluminium Tray.

2400mm Long Service Body*

Available across most Single Cab Utes

2400mm long service body available for single cab ute vehicles. Can be fitted onto an existing tray or replace a tray / tub body with a Caddy Made Aluminium Tray.

C. Service Body Heights

1000mm High Service Body*

Available across 1800mm, 2100mm and 2400mm long service bodies. The extra height allows you to store more.

SERVICE BODY AND TOOLBOX ACCESSORIES

Service body and toolbox accessories enhance the functionality, security and organization of your vehicle. When you have the right available equipment, it allows you to get to the worksite and perform your job more efficiently than ever before.

This is important for the individual tradie and even more so for fleet operators managing multiple vehicles.

Available accessories include:

- Internal shelving
- HDS Slides
- Ladder Racks
- Underbody Toolboxes
- Battery Systems and Inverters
- Drawer systems
- Internal Lighting Solutions
- Conduit Carriers
- Ventilation Solutions
- Mesh partitions which allow you to sectionalise compartments in your service body

From this range of accessories we can ensure that you maximise your storage capacity, while guaranteeing that your tools and equipment are easily accessible and properly secured.

A fully fitted out vehicle ensures that everything has its place, reducing downtime and improving your productivity.

Don't be on the worksite without the right tools.

SERVICE BODY & TOOLBOX ACCESSORIES

Complete your fit-out with our range of Service Body and toolbox accessories, designed to enhance functionality, security, and convenience. Maximize storage with trundle drawers and underbody boxes, providing easy access to tools and equipment while keeping them protected. Improve security with central locking systems, ensuring your gear stays safe at all times. For added protection, window guards help prevent damage and unauthorized access. Enhance visibility with internal lighting, making it easier to work in low-light conditions.

Need safer and easier access? Our side steps offer stability when reaching into your Service Body. Whether you're looking for better organization, security, or accessibility, our accessories are built to withstand tough job site conditions and keep your workspace efficient.

Must-have Accessories

Trundle Drawer

This drawer makes use of the space underneath your ute tray. Available in 1800mm long or 2100mm long drawers. Secures levels, shovels, etc.

Accessory Wall

Fitted on the cabin side of the service body. Several Caddy holders and hooks can be mounted, allowing for greater customisation. Works well with Pantry Style Shelving Unit.

Window + Guards

A window reinforced with a Mesh window guard. Can be placed on the rear of the Service Body or behind the Cabin window.

Underbody box

Storage boxes with side openings. Can be positioned behind or in front of the rear wheels.

Side Steps

U-shaped steel tube used as a step to access the roof rack area. Can be installed behind or in front of the rear wheels.

Water Tank + Soap Dispenser

25 Litre underbody water tank with built in provisions for soap dispenser. Can be fitted on either side of the vehicle.

ROOF RACK SYSTEM

Suitable for Vehicles fitted with a Service Body

Caddy Storage Roof Racks are built to withstand heavy-duty use, making them an ideal choice for professionals who need a reliable solution for transporting equipment and gear in demanding environments.

Designed with durability in mind, these racks can handle substantial loads, providing secure and stable storage even in tough conditions. They are fully compatible with the majority of leading roof rack manufacturers accessories allowing for a seamless installation and customization process.

Whether you're transporting tools, ladders, or large equipment, Caddy Storage Roof Racks offer the strength and flexibility needed for a wide range of applications, ensuring that your gear stays safe and accessible no matter the job.

Their rugged construction and versatility make them a trusted choice for work vehicles across various industries.

At Caddy Storage we develop and manufacture the following Roof Rack products:

- Heavy Duty Bars
- Service Body Specific Roof Rack Mounting legs
- Conduit Clamps
- Multislide Ladder Racks

FEATURES

Caddy Heavy Duty Bars

Caddy-made 2 or 3 bar roof racks available. Can be used to mount an assortment of other roof rack products on it.

Roof Rack Roller Bar

Roof rack roller bars ease loading and unloading, ideal for tradesmen and contractors.

Alloy Ladder Rack

Toolbox Only. 75mm Alloy Tube Ladder Rack for easy ladder storage. Strapping required to securely store ladders.

Roof Rack Tray

Service Body only. We order and supply Roof Rack Trays.

Conduit with Clamp

Conduits protect and organize wiring or piping, ideal for electricians and plumbers. Clamps attach the conduit to our roof racks.

Multislide System

Service Body only. System includes multiple Ladder Racks and Conduit with clamps.

SERVICE BODY SHELVING

Suitable for Vehicles fitted with a Service Body and Toolboxes

These kits are exclusive to Service Bodies. Shelving accessories can be placed on the side and back panels of the shelving unit allowing for greater customisation.

Have your choice of:

- 3 or 4 shelves for the 660mm high unit.
- 4 or 5 shelves for the 800mm high unit.

This modular shelving unit can be installed by itself, or as part of a set system which includes drawers, small parts drawers and frames. Bottom shelving rows can be modified with a lockable door and base frame.

Features:

- Unique design specific to Service Bodies
- 3 - 5 fixed shelves
- Modular (shelving accessories sold separately)

Specifications:

- Unit widths: 850mm or 1080mm or 1260mm
- Unit Heights: 660mm or 800mm

Suits any ute with an installed Service Body, however sizing and fitting are subject to the internal dimensions of the Service Body.

SHELVING WIDTHS AVAILABLE

PANTRY STYLE SLIDING SHELVING

Suitable for Vehicles fitted with a Service Body

Keep your Service Body clean with our space saving Panty style sliding shelving unit. This shelving unit can slide outwards allowing you to safely access your shelves, as well as allow space for larger accessories such as drawers and/or slides. The uniform design allows you to install this shelving unit onto the passenger or driver side of the Service Body.

Features

- Fits Dual, Extra and Single Cab Service Bodies
- 80mm high elevated base to allow slide to avoid the service body lip
- Slide in and out function for easy access.
- Slide extends to 800mm
- Powdercoated Ripple Black

Specifications

- Unit Dimensions: 811mm long (At base - Profiled to the side of the body) x 312mm wide x 710mm high
- 3 Fixed Shelves at 305mm deep
- Bottom Drawer: 235mm wide x 90mm high and extends 465mm to the front face

Note: Bottom drawer is 80mm clear underneath to the floor. If fitting in a non-Caddy Service Body please check this measurement to ensure the bottom drawer can extend out the side door.

FEATURES

Slide in and out function for easy access. Slide extends to 800mm

Shelving unit suits PBC 3.0 and PBC 6.0 (Optional Extra, not included in standard price)

Additional slide out bottom drawer

PLASTIC BINS

Plastics bins can be used for any general small parts storage. Made from polypropylene plastic, which are highly resistant to physical impacts but also flexible enough to avoid shattering upon impact. Some key features include:

- Front handle with slot intended for labelling
- Colour code corresponding to the amount of capacity each bin can hold
- Divider slots and 2 free dividers, allowing for custom small part organisation (available to PBC models only)
- Bins are water resistant and can be washable with soap and water

Our plastics bins are typically used for our shelving units, but we can also recommend them for other storage purposes such as inventory storage for warehouses or supply room storage for hospitals. Lastly, we proudly source our plastic bins in Australia.

For more information and to see our full range of plastic bins visit www.caddystorage.com.au/product-category/small-parts-drawers-plastics

13.4 Litre capacity stackable green polypropylene plastic storage bin with open front face to allow for easy access. Can be mounted on a Louvre panel.

PBC 8.0

200mm W X 400mm D X 100mm H

8 Litre capacity green polypropylene plastic storage bin with 2 modular dividing slots. Closed design for secure storage. Suits Caddy Shelving.

SHELVING ACCESSORIES

Even the simplest additions to your internal fit out can make day-to-day tasks a lot less complicated. Our aim is to provide you with practical storage solutions and our range of internal vehicle accessories to accompany your shelving will help maintain a well organised working vehicle.

Our unique shelving end panel design is punched with holes that can be utilised for hanging accessories which can be adjusted in any combination you desire.

We can fit an assortment of Shelving Accessories onto your Service Body Shelving Unit or Accessory Panel.

Lockable doors

Shelving only product
Lockable single or double doors to secure items, suitable for any shelf, excluding the top shelf on kits.

Cable shelf

We remove the bottom two rows and replace it with a cable shelf. The shelf matches a cable reel shape, preventing unnecessary movement while travelling.

Silicone Tube Holder

Silicone tube holders can be mounted onto any position on our shelving unit end panels or accessory wall. Can hold 4 or 8 silicone tubes.

Spray Can holder

Spray can holders can be mounted onto any position on our shelving unit end panels. Optional version with 4 silicone tube holders available.

Extension Lead Holder

Extension lead holders allow you to hang multiple sized leads from your shelving unit or accessory wall

Carry case holder

Single carry case frame positioned on shelving end panel, carry case included.

Double Carry case holder

Double carry case frame positioned in shelving. Carry Cases included.

Paper Towel Holder

Paper towel holders can be mounted onto any position on our shelving unit end panels. Can be used to carry paper towels. Pairs well with a hand wash system.

Carrying Hook

Carrying hooks can be mounted onto any position on our shelving unit end panels. Can be used to carry small cables or similar items.

Straps

Various sizes of cam lock buckle and ratchet straps are available to secure your items.

First Aid Kit Holder

First Aid Kit holders can be mounted onto any position on our shelving unit end panels. Can hold a small first aid kit or similar.

Water Bottle Holder

This can be mounted onto any position on our shelving unit end panels. Can hold a 10 Litre water container. We can add a water laundry tap for easier use.

Soap / Sunscreen Dispenser

We can incorporate soap or sunscreen dispensers on the end of the shelving panel.

(DBD) HEAVY DUTY DRAWERS

The DBD Drawer is Caddy's signature drawer system. It has been designed and engineered to suit a wide range of trade applications and fit in all vehicles.

It has been engineered to ensure that it will stand up to the years of usage in your trade vehicle.

Its modular size variations ensures that we will be able to provide you a drawer which suits your width, height, and depth you require.

For more information and to see our full range of Heavy Duty Drawers available visit www.caddystorage.com.au/drawers/

FEATURES

Our drawers are rated to support a 125KG distributed load.

We have performed cyclic testing to ensure that these drawers will not fail in the field. With the drawer running through 16000 in and out cycles without fail.

Our Lock handle has an ergonomic grip, with a large texturized rubber handle to ensure you are able to grip comfortably.

Each drawer lock comes keyed randomly from a set of our customised 5 Key combinations, this ensures your stored cargo is safe.

All drawers come with a standard lock in lock out function, this is a flush flip latch housed in the top cross bar of the outer casing.

This is to ensure when you are accessing your items, the drawer will not close on you.

We have incorporated adjustable lateral roller bearings into our new drawers.

These guides reduce possible friction between the inner and outer bodies. In turn creating a smooth motion going in and out.

We have specifically engineered our dual bearing wheels for this new drawer system to ensure they will last the test of time.

Available in single or double arrangements, standard or custom sizes depending on your needs.

(DBT) HEAVY DUTY DRAWERS

The DBT Drawer is Caddy's newest innovation in storage. Our DBT Drawer has the unique feature of being able to be opened from either end. This will allow you to conveniently access your tools, equipment and cargo from either the passenger or driver side of the vehicle.

It comes with all the standard features of the DBD Drawer.

The DBT drawer is perfect for Vans with Twin Sliding Doors or Service Bodies.

For more information and to see our full range of Heavy Duty Drawers available visit www.caddystorage.com.au/drawers/

The main feature of the Dual Bearing twin drawer is that it is Bi-directional and can be opened from both the front and back face.

FLAT TOP SLIDES

Caddy Slides are similar in structure to Caddy Drawer without top or side panels. Caddy Slides are made entirely of steel, with a load rating of 100kg. This allows for the option of machinery or accessories to be mounted or welded directly to them.

Like Heavy Duty Drawers, they slide out to approximately 66% of their total length. When fully open, they lock into position to avoid roll-back.

Standard Caddy flat top slides can be used for multiple tasks as you find fit; secure your tools to it or use it as a bench top.

For more information and to see our full range of Flat top Slides available visit caddystorage.com.au/product-category/drawers-and-slide-systems/

FEATURES

All drawers slide out approximately 66% of their original length and has a load rating of 100kgs.

Our Flat top design allows for a variety of products to be mounted on top.

Custom variations of our Caddy Slide design can be made to tailor to your specific type of work.

(HDS) HEAVY DUTY SLIDES

This product is the latest iteration of our Slide Systems. We have designed and engineered a new slide which can support up to 170kg and can slide open to approximately 90% of its original length with a locking mechanism when fully open.

We offer an additional tie down kit which allows you to strap down products to your Heavy Duty Slide with ease.

Features

- Heavy Duty Slide with Tray
- Load Rating: 170kg evenly distributed across the slide
- 2.5mm Steel construction powdercoated graphite ripple
- All Slide Systems slide out to 90% of overall length
- 30mm Handles attached to the front of the slide
- Lock-in and Lock Function (Lock Tabs must be pushed to close)
- 17mm Formply Base for easy screwing of accessories and equipment
- Additional Tie down kit available sold separately (PN: HDS-TIEDOWN-KIT)
- We offer a range of different Slide configurations and widths

For more information and to see our full range of Heavy duty Slides available visit caddystorage.com.au/product-category/drawers-and-slide-systems/

HDS drawers slide out approximately 90% of their original length and has a load rating of 170kgs.

Redesigned grab handle feature along with a lock-in function. This ensures no movement when fully open.

HDS slides are compatible with most of our other Caddy Products including drawers, etc.

(CPS) CADDY PARTS STORAGE DRAWER

CPS Drawers are a handy toolbox drawer system used for small parts storage. It features an in-built handle and push button lock for ease of use. Our CPS Drawers are part of a modular system and are available in several different configurations to accompany your fit out.

Specifications:

- All CPS Drawers are 450mm Deep and 495mm Wide
- Choose from five different heights:
 - › 1 high unit (155mm)
 - › 2 high unit (245mm)
 - › 3 high unit (345mm)
 - › 4 high unit (450mm)
 - › 5 high unit (545mm)
- Select from different configurations of carry case, standard small and standard large drawers
- Choose from a number of extras to enhance your drawer

3 high CPS drawer unit

5 high CPS drawer unit

CONFIGURATIONS AVAILABLE

CPS Unit with all Carry Case Drawers. Used to hold CCA-1 Carry Cases. Good for organising small parts such as bolts, nuts, etc.

CPS Unit with all Standard Drawers. Can choose between small or large drawers. Can be used to hold tools or similar items.

CPS Unit with a combination of Carry case drawers and standard drawers. You can mix and match drawers to suit your style.

ADDITIONS

Top Tray

Our most common addition to our CPS Drawers. We can install a tray on top of your CPS Drawer. Choose between 40, 80,100 or 150mm high lips. Best used for storing items that require easy accessibility.

Filing Cabinet Style Drawer

Transform your CPS Unit into a Filing Cabinet style Drawer with push key lock. Secures documents and other files. Only Available for 3, 4 or 5 high CPS Units. Suspension files sold separately.

Side and Rear Cover Panels.

We can outfit your CPS drawer with side or rear cover panels. This stylish cover panel can be used to cover exposed areas of the CPS unit. Easy to install.

OTHER STORAGE DRAWERS

DSH STYLE DRAWER

An alternative design to standard drawers, servicing a similar purpose to a toolbox. Available in 5 different sizes, they feature lockable drawers and divides in each drawer for the ability to create separate compartments to organise your tools.

- Optional Extras
- Top tray for extra storage space
 - Base frame to suit application (custom sizes available)

VALUABLES PART STORAGE DRAWER

Complimentary product with CPS Drawers. Allows you store valuable items (such as laptops, hard drives, etc) in a completely enclosed space.

- Features:
- Completely enclosed space
 - Low profile compression lock with key lock

CASES AND LARGE BINS

PCC 1.0

FLASHING LIGHTS

Small amber LED lights available. Can be installed in either the front or the rear of the vehicle.

AUTO ELECTRICAL

ALARMS AND REVERSE PARKING ASSIST SYSTEMS

Driving accessories such as cameras and beepers ensure safety for people in close proximity to the vehicle when driving with limited visibility.

They can also assist in avoiding damage to the vehicle when parking or operating in confined spaces.

For more information and to see our full range of auto electrical products available visit www.caddystorage.com.au/product-category/electrical-equipment

REVERSE CAMERA

Available for any vehicle. Includes camera and LCD screen or Rear View Mirror screen. Provides a clear view when reversing.

SENSORS

We supply new sensors which can be mounted onto our Caddy Storage Rear Steps.

REVERSE BEEPER

Available for any vehicle, a reversing beeper emits a loud noise when the vehicle is in reverse.

TRUNDLE DRAWER ALARM SYSTEM

Caddy Trundle Drawer – Warning system that will alert the driver that the rear trundle drawer is not locked.

AUTO ELECTRICAL

POWER SUPPLY

Stay powered on-site with our comprehensive power supply solutions.

We source and install a wide range of inverter systems, high-capacity batteries, air compressor systems, and convenient plug-and-play sockets.

Whether you need reliable energy for tools, equipment, or accessories, we provide tailored solutions to keep your workflow uninterrupted.

INVERTER SYSTEM

Pure sine wave output inverter. Used to power AC electronics.

DUAL BATTERY SYSTEM

Complimentary item to Inverter. Powers inverter.

12V AIR COMPRESSOR SYSTEM

Portable system to power your air tools on-site.

12V ACCESSORY SOCKET

Plug and play sockets. 1 x Cigarette socket and 2 x USB-A type sockets.

TRADE ACCESSORIES

MESH PARTITION

25mm x 50mm welded onto a steel frame and powder coated graphite grey. Ideal for segmenting different sections of the cargo area.

JERRY CAN HOLDER

Stores standard 20 Litre Jerry Can. Good for transporting fuel or liquids safely.

CONDUIT STORAGE BOX

Specialized electrician's product for carrying conduits or long items, features a clamp lock.

HOSE REEL

External Hose reel attached to the back of a service body, connected to an internal compressed air system to allow use of compressed air tools while in the field

GAS BOTTLE BOX

Stores and encapsulates Oxy Acetylene Bottles, with a vent to safely dispense fumes. Good for transporting Gas Transportation.

GAS BOTTLE FRAME

Stores Round LPG Bottles for easy access. Bottles are held in place using ratchet straps. Ideal for Air Conditioning Industries.

TOOLBOX DOOR

Custom door made for the space in-between a twin toolbox setup. Can be used to store items which don't require full shelter.

ROOF VENTS

Roof Vents allow the cargo area air to escape your vehicle while in transit. Can be fixed or rotary. Good for transporting gases.

TILTING VICE

Vice Grip with a folding arm. Various arm lengths and types available. Ideal for locksmiths.

GRAB HANDLES

Good support item for Roof Racks and Side Steps. Allows you to safely access the roof area. Pairs well with tube Side Steps and Roof Racks.
