For all your vehicle storage solutions

Aluminium Ute Canopy

The New Caddy Aluminium Ute Canopy has been designed and built for Tradies & 4X4 Enthusiasts.

Our one-piece, fully welded body construction ensures that whether you are operating on the worksite or you're off the beaten track in the bush, it will keep your tools and touring equipment safe and secure.

Key Features:

- One Piece Welded Structure.
- Slam Latch Handles
- Diecast Alloy Slam Lock
- Micro Adjustable Locking Pins
- Integrated Central Locking
- 900mm Automatic LED Strip Light with Dimmable Brightness Function
- 2 Stage Rotary Catch Locks
- Large Side Door Access
- Textured Powder Coat Finish
- Removable Backbone Roof Rack System
- Unistrut Roof Racks – compatible with a wide range of aftermarket accessories
  a) 125KG Dynamic Loading. Evenly distributed across 3 Bars (When the vehicle is in transit)
  b) 300KG Static Loading, Evenly Distributed across 3 Bars (When the vehicle is stationary)
- No-Drill Installation

All these key features come included in the price. Tough, practical, and built to last—this canopy is ready for whatever the job demands.

Alloy Slam Lock

Our custom designed alloy lock combined with 2 stage rotary latches will ensure that your equipment stays safe. Single handle operation for ease of use.

Central Locking – Integrated into the vehicles OEM central locking, our Aluminium Ute Canopy locks and unlocks seamlessly with the vehicle's factory remote.

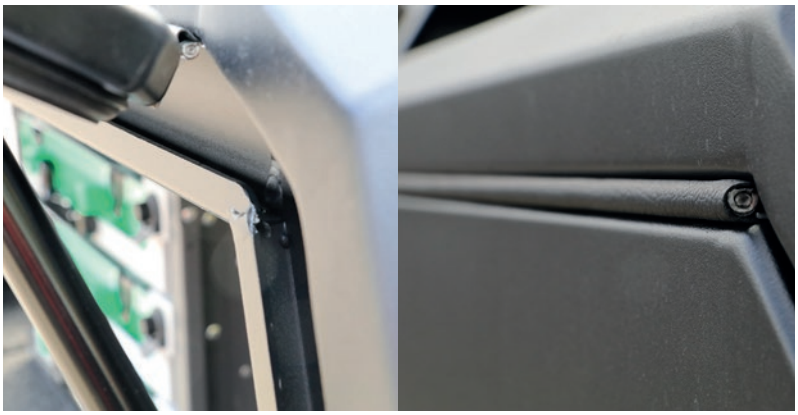

Body Construction

Our Aluminium Ute Canopy is built from 2.5mm Aluminium Sheet. This sheet is bent into shape, seam welded, and ground back for a clean, smooth body profile.

Side Door Opening

Usability is a major factor when selecting the right canopy for you. We have designed our Aluminium Ute Canopy with door openings as large as possible within the body size, to allow you access your equipped from the side doors effortlessly.

Weather Proofing

Our hinges are equipped with a full-length PVC seal ensure weatherproofing from the harsh Australian Environment, in combination with a full rubber pinch weld door seal.

Roof Racks

Our 3 Bar Roof Rack and Backbone system comes standard with every Aluminium Ute Canopy.

Compatible with a wide range of aftermarket accessories.

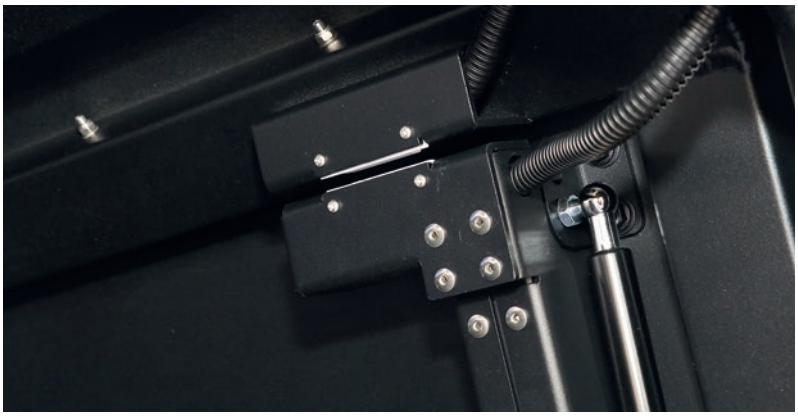

Electrical Control Box

Our Aluminium Ute Canopy comes standard with an Electrical Control Box that allows integration of our lighting and locking features into the vehicles electrical system.

Automatic Lighting

Our internal LED Strip Light is controlled by magnetic door switches, triggered by the opening and closing of the doors. This allows for automatic lighting when operating the doors of the canopy.

The LED Strip Liight is also equipped with an independent switch, allowing for manual control of the light.

Internal Lighting

Our Aluminium Ute Canopy come standard with a 900mm LED Strip Light, mounted down the centre of the roof. This light is equipped with a dimmable function, allowing the user to adjust the lighting to their needs with one push of a button.

List of Confirmed Vehicle Models available:

- Toyota Hilux (11/2025+)
- Ford Ranger Next Gen (07/2022+)
- BYD Shark

$5,500.00

Complete kit including GST and installation.

WHY PICK A CADDY STORAGE ALUMINIUM UTE CANOPY?

Competitors - Flat Pack

Caddy Storage - Solid Construction

Caddy Storage - Fully Welded

1

1. Strength and Construction: The majority of Aluminium Ute Canopies in the market are Flat Pack models. This means the construction of the body is made up of multiple panels.

   These panels are then bolted together and finished with an adhesive seal. Our one-piece, fully welded Aluminium Body construction allows for even distribution of loads, reduced possibility of warping, and removes the risk of leaking between seals.

2. Locking Methodology: The market is dominated by canopies equipped with compression locks on the doors. Unlike our custom design, this removes the ability for one handed operation, central locking and slam latch compatibility.

3. Our built-in central locking comes standard on all of our canopies. With this feature, it removes the need to manually lock and unlock individual locks to access your equipment. Pack up with peace of mind that with the push of a button, the canopy is secured and your equipped is safe.

4. Automatic Lighting: Most canopies lack automatic lighting that triggers when doors open and close. With our setup, you never have to worry about accidentally leaving a light on and draining your vehicle's battery. After all, no one likes a flat battery.
